Description

Arla Pro; made specifically with professional chefs & operators in mind. Arla Pro Cold Foam - the fast way to add a café style finish to iced coffees and cold drinks. Our instant foam whips up thick, fluffy and snow white in seconds, from real skimmed milk, then sits on top without melting quickly. Serve a smooth, creamy mouthfeel with less heaviness and fewer calories than cream based aerosols. Consistent for over 30 minutes, even with sprinkles, it delivers picture perfect layers that drive social sharing and Gen Z appeal. Customise with flavours for signature craft drinks, boost perceived value, lift selling price and protect margin, simply without adding operational complexity. Suitable for vegetarians.
